EDUCATION

Vidya Pratishthan's Kamalnayan Bajaj Institute of Eng. & Tech. <i>B.Tech in Computer Science</i>	2023 – 2027 (Expected) CGPA: 8.72/10.0
Vidya Pratishthan Arts, Science and Commerce College , Baramati <i>Class XII (HSC)</i>	2023 Score: 80.17%
Shri Shahaji High School , Supe <i>Class X (SSC)</i>	2021 Score: 97.00%

PROJECTS

Expense Management System

Technology: React.js, Node.js, Express.js, MongoDB, Chart.js

- **Built a full-stack MERN Expense Management System** for real-time tracking, management, and analysis of personal and business expenses.
- Implemented **secure user authentication and CRUD operations** for adding, updating, categorizing, and deleting income and expense records.
- Designed **interactive dashboards with charts and summaries** to visualize monthly spending, category-wise expenses, and budget trends.
- Developed **scalable RESTful APIs using Node.js and Express.js** and integrated **MongoDB** for efficient and reliable data storage.
- Enabled **advanced filtering, search, and export features** to improve financial tracking and decision-making.

AI SaaS Platform

Technology: React.js, Node.js, AI Models, Cloud, APIs

- **Built a production-ready AI SaaS platform** delivering intelligent tools through a simple web interface.
- Enabled **real-time AI predictions** to automate tasks and support data-driven decision-making.
- Designed the system for **scalability with cloud deployment** and **secure multi-user access**.
- Implemented **subscription-based access** to monetize AI-powered services.
- Optimized the platform for **performance, usability, and reliability** in real-world business environments.

TECHNICAL SKILLS

- **Languages:** Java, C/C++, Python, HTML, JavaScript
- **Databases:** MySQL, MongoDB
- **Developer Tools:** Git, GitHub, Streamlit, VS Code
- **Concepts:** Data Structures & Algorithms, Regression, Classification.

LEADERSHIP & ACTIVITIES

Team Lead | Expense Management System

- Developed a **Led a full-stack development team** to design & implement a real-world **Expense Management System**.
- Implemented **project planning, task distribution, and code integration** to ensure timely delivery.
- Actively guided teammates in **MERN stack, debugging, and best coding practices**.

Technical Development

- Solved **30+ algorithmic problems** on **LeetCode** and **GeeksforGeeks**, building strong foundations in data structures and problem-solving.
- Developed multiple full-stack applications using **React, Node.js, Express, and MongoDB**.
- Implemented RESTful APIs, authentication systems, and database schemas for scalable web apps.
- Optimized performance and user experience through efficient code and UI improvements.

Machine Learning Experience

- Built **end-to-end Machine Learning pipelines** using **Python, pandas, scikit-learn, and XGBoost** on real-world datasets.
- Implemented **Random Forest, Naive Bayes, K-Means, and XGBClassifier**, including an **AI-powered Women Safety Route Advisor** leveraging geospatial crime data.

CERTIFICATIONS

- **Programming in Java** – NPTEL(I.I.T.,Kharagpur)
- **Introduction to Cybersecurity** – Cisco Networking Academy
- **RDBMS PostgreSQL** – I.I.T.Bombay
